

MEDIA Model-300S 800S

MEDIA Model-300S 800S is compact machine which drives AC 100V.

Use : Completion goods, Name plate, Stickers, and etc.

This is the semi-auto machine for cost performance which functions are rich in high precision, endurance and low risk.

- Screen frame is fixed water level.
This is the type of driving the table up down for high precision, and easy to change a frame and clean up the stencil.
- Easy to set the frame which has equipped adjustment device(Back and forth, right and left)
- Programming a electron circuit by sequencer system, so few trouble.
- Squeegee and coater can be selected any speed, so you can print fine pattern and over-printing.
- By foot switch, It can move one cycle printing.
By Auto-switch, It can continual print.
- If you need to printing thin material like a sheet or film, we can equip a vacuum device.

■ Specification

Model-Code	Model-300S	Model-800S
Max printing size	150x300mm	200x800mm
Max frame size	350x700mm	450x1200mm
Max thickness	100mm	
Table size	200x450mm	300x1000mm
Squeegee speed	50-500mm/sec	
Squeegee stroke	450mm	1050mm
Power of electricity	100V100W	100V400W
Machine weight	180Kg	380Kg

- Option: Vacuum device For thick printed device 3P200V
